

Brilliant Tutoring Programme – Funding routes 2021-22

The Brilliant Tutoring Programme

The Brilliant Tutoring Programme provides online and in-person tutoring to pupils in **small groups** (1:3) in **core** subjects. Our programme is designed to run virtually in schools and we have successfully adapted to running the programme to reach pupils at home. We are only able to deliver in person tutoring in limited geographic areas. For full details of the programme visit our website or read through our programme flyer [here](#).

Funding and School Contribution

Placements will be arranged in groups of six pupils (taught in two groups of three). There are two ways that schools can access the Brilliant Tutoring Programme online for 2021-22:

- **Tuition Partner Hub:** Schools sign up to the Hub. This allows you to book tuition and track the programme. There is a 70% government subsidy for schools in England to contribute towards the cost of the programme. The remaining 30% of costs is invoiced directly to schools.
- **School-Led Tutoring:** Schools sign up directly with The Brilliant Club and report directly back to the Department for Education. Schools are allocated a ring-fenced grant to cover a proportion of the cost of the programme. We recommend Schools read through the [full government guidance here](#) to understand how this funding pot will work in their school context.

Online Tutoring	Tuition Partner Hub	School-Led
Total cost per placement (six pupils, 15 hours of tutoring)	£1,800	£1,800
Total cost per pupil (15 hours of tutoring)	£300	£300
Funding Contribution	£1,260	£1,215*
School Contribution	£540	£585

*This is an estimated amount based on the Department for Education's calculated average cost of tutoring, exact budgets will vary between schools. On the School-Led route, schools will be invoiced for the full cost of a placement (£1,800) but will receive the grant directly to partially cover these costs.

We are able to deliver in-person tutoring in limited geographic areas, via the Tuition Partners route.

In person Tutoring	Tuition Partner Hub
Total cost per placement (six pupils, 15 hours of tutoring)	£2,250
Total cost per pupil (15 hours of tutoring)	£375

Funding Contribution	£1,575
School Contribution	£675

On both routes, The Brilliant Club will provide a bespoke impact report to your school which details individual pupil progress and includes comprehensive written feedback from tutors. This can support with any reporting needed to the Department for Education through the School-Led funding route, or to the National Tutoring Programme Tuition Partners Hub.

Covering School contributions

For both funding routes, schools need to cover the unsubsidised costs. The Department for Education have recommended schools use the Recovery Premium or Pupil Premium to support this. Schools cannot use the School-Led Tutoring grant to cover the unsubsidised costs of the Tutoring Partner Hub route.
