

Brilliant Tutoring Programme 2021-22

The Brilliant Club is an approved National Tutoring Programme provider through our new Brilliant Club Tutoring Programme.

We're looking for enthusiastic PhD researchers to support this national effort by tutoring pupils on key curriculum content to help them access the future they deserve.

To be a tutor with us, you must:

- Be a **PhD researcher** or **hold a doctorate**
- Have a subject specialism that would allow you to teach **English, Maths, Biology, Chemistry** or **Physics** (if your research is outside of these key curriculum areas you need a relevant undergraduate degree)
- Commit to **30 hours of teaching** over a term or half term
- Provide pupils with **written feedback**
- Complete **Brilliant Club training**

Opportunity for PhD researchers and Post Doc Researchers

Benefits for you

As one of our tutors, you will develop:

- **Valuable teaching and public engagement** experience
- Receive **expert training** and support
- Support pupils from **disadvantaged backgrounds** to get into the most **competitive universities** and succeed when they get there
- Earn **£550** per placement (plus £75 London weighting)
- Teach small groups of **3 pupils at a time**, online

A recent survey of researchers showed **85%** of tutors reporting that **"working as a tutor has boosted their employability skills"** and **96%** agreeing or strongly agreeing that their latest placement **"provided me with a meaningful opportunity for public engagement."**
