

The Brilliant Tutoring Programme boosts pupils' **confidence, knowledge, and skills in core subjects**. Our trained post graduate tutors raise **academic attainment** through 15 hours of **small group tutoring**. We have been an approved National Tutoring Programme provider since 2020.

Our Courses

Key stage 3 and 4

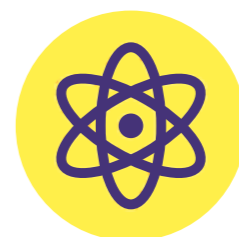

English

Maths

Key stage 4 only

Physics

Biology

Chemistry

Over the last 2 years, we have...

Trained 862
post-grad tutors

Delivered
60,000+ hours
of effective
small-group tuition

Supported 12,228
pupils across
England

The Brilliant Tutoring Programme is brought to you by **The Brilliant Club**, a charity with more than 10 years' experience in supporting disadvantaged young people.

We want to create a society in which a young person's life chances are not limited by their background.

Training

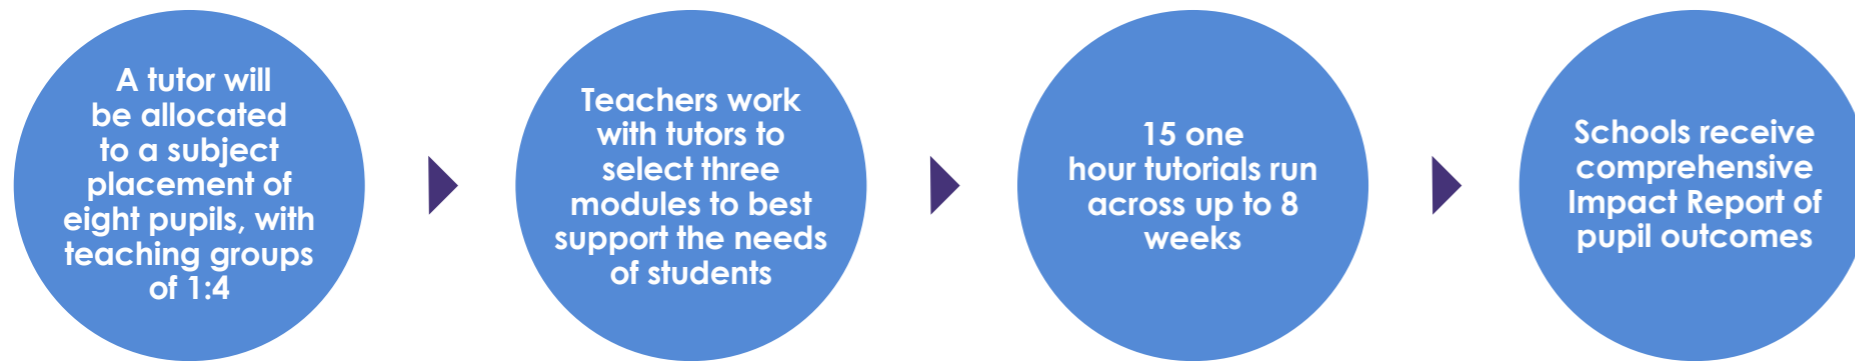

High Quality
Tutoring

“I have seen students elated after a lesson. The praise and confidence building that some tutors have offered has been excellent.”
Lead Teacher,
Scarborough

As **subject experts**, tutors can support pupils to catch up with their learning; inspire them beyond the curriculum; and build an understanding of university study.

Pupils complete formative assessments throughout the programme. We monitor pupil engagement and share data on a live basis with lead teachers.

Tutorial Delivery

Tutorials are mainly delivered online with some hybrid delivery available in limited geographic locations.

Schools run the programme on a timeline of two tutorials per week over eight weeks, to ensure maximum engagement from pupils.

Target Pupils

The Brilliant Club requires that at least 55% of pupils registered on the programme fulfil at least one of the following criteria:

- Pupil premium eligible
- No parental history of higher education
- Deprivation according to postcode: IDACI 1 – 4

We advise schools to use this intervention for mid-high prior attainers. Courses are designed to catch pupils up and stretch them.

Cost

	Online	Hybrid
Per pupil, per hour	£21	£23
Per pupil, 15 hours	£315	£345
Per placement (8 pupils, 2 groups of 4)	£2,520	£2,760

Programme Impact

Academic Achievement

National averages based on 360 pupils with one or more Knowledge Check 1 and 2

In 2021-22 pupils on the Brilliant Tutoring Programme made good progress across modules, assessed by knowledge checks.

The Brilliant Tutoring Programme helps students to develop subject knowledge, critical thinking, metacognitive and communication skills

Places are limited in all subjects, especially Maths and Physics.
