

# Norwich Parent Power

A partnership between The Brilliant Club, the University of East Anglia and NEACO.

Through advice and guidance on accessing higher education and developing skills in community organising, Parent Power, in partnership with the University of East Anglia and NEACO, empowers parents and carers in Norwich to make change in their children's future.

## What Norwich Parent Power have been up to...

### 1. Parent Power Meetings

So far, we have had three meetings at the UEA. During these meetings, parents have identified issues that affect young people in Norwich. These include children's mobile phone use and study stress.

### 2. Information and Guidance

Parents in Norwich Parent Power have received information and guidance sessions on study skills and choosing GCSE options. They have also received support on how to open-up conversations with their young people through NEACO's 'Curious Questions' game.

### 3. Local Campaigns

Parents are currently working on a campaign for a bespoke open day at the UEA. Parents are also working on developing a campaign around supporting their young people with study stress.

## Norwich Parent Power helps parents to feel...

Prepared and supported

Empowered

Relating here helps us to see we're not the only ones facing troubles. We can build each other and strengthen each other.
